Analysis of Current Electronic Monitoring Capability

The Division of Probation and Parole has been using electronic monitoring since September 1995. Currently, we have approximately 200 offenders that are state paid that are on some type of electronic monitoring.

We currently have 100 offenders on RF enrolled with G4S, a company out of Rancho Santa Margarita, CA.

If there is a violation, the officer is notified next day by e-mail. The cost of this system is \$1.72 per day per offender. The system monitors subject when he enters and leaves a designated area (usually his residence).

G.P.S. or Global Positioning Satellite Tracking is a system whereby the offender can be tracked 24-7. While we have the ability to use active G.P.S. tracking, we are currently using a passive system where the offender's movements and violations are reported the next day by e-mail to the officer. We currently have 100 sex offenders on G.P.S. that is state paid at a rate of \$3.24 per day, per offender. We have a contract with G4S, a company out of Rancho Santa Margarita, CA.

Probation and Parole also has approximately 400 offenders, that are on some type of electronic monitoring with several different vendors that are offender/court paid per orders of the local court system.

No electronic monitoring system will prevent offenders from re-offending or take the place of an officer. However, it is an excellent tool that can be used by the officer in the supervision of an offender.

1. ACA ACCREDITATION SCORES

Accreditation offers the opportunity for institutions to evaluate their operations against national standards, remedy deficiencies, and upgrade the quality of programs and services. Some of the recognized benefits from such a process include improved management, a defense against lawsuits through documentation, increased accountability and enhanced public credibility, and a safer and more humane environment for staff and offenders. In order to be accredited, an agency must comply with 100% of all mandatory standards and 90% of all non-mandatory standards. The scores below reflect percentage scored on non-mandatory standards as of January 2012.

Accreditation is granted for a three year period. During this time, ACA requires that accredited agencies submit annual certification statements confirming continued standards compliance at levels necessary for accreditation. To maintain accreditation status, application must be made nine months prior to the anniversary of accreditation. Agencies seeking reaccreditation must again satisfy the criteria.
